INTRODUCTION

Indian Astrology is called as Vedic Astrology by the West. Veda is the birthplace of Astrology. Vedas, lakhs of years old, are ancient and rare assets. Indian Astrology is very old and subjected to lots of tests and analysis. 'Jothisha', a Sanskrit word, is known as Study of Lights. Therefore this is considered as rule of Lights, since the Sun, considered to be the light and rays to the entire world, is taken as basis of this 'Astrology'.

Birth and Growth of Astrology

Even 2000 years BC, people of Mesopotamia had compiled about the Astronomical omen. When Parsis' influence was greater in Mesopotamia, those who were observing the Astronomical omen, the growth of omen started waning. Therefore Diaries were prepared so that anybody can understand the

effects of omen. Solar eclipse and lunar eclipse were considered as omen. In Mesopotamia, Saldiers knew about the Astronomical positions even in 500 BC, as per Blin.

The Mesopotamians, Babylonians and Saldiers were considered as the Pioneers of Astrology. Saldiers were the first to tell about the Astrological predictions of 12 Rasis encompassing the Planets and Stars. As per Historical analysts, the most ancient Astrological predictions dates back to 29th April 410 BC. Saldiers might have introduced improvement on this in 600 BC. Based on some important episodes, Saldiers used to tell about Astrological omen. During this time only, the process of writing Horoscope based on the position of Rasis was introduced. After that, Astrology grew under Babylonians and Greeks. Greeks are considered as the pioneers in today's regulated Astronomy.

In India, Astrology emanated from one of the ancient Religions, the Hindu Religion. Astrology was ingrained in the 4 Vedas of Hindu Religion. Astrology found in Rig, Yajur, Sama and Atharvana Vedas forms the starting of Indian Astrology.

C.G Rajan points out that the Astrological tradition came in the lines of Dhuruvan, Jayamuni, Karkar, Vyasara, Sathyachariar and Maniththar.

Aryabhata, belonging to the Gupta dynasty was the first proponent of releasing 'Panchanga' in the World. Also, he wrote the Astrological magazines like Brahmma Gupta and Bhaskara.

Predictions based on the omen started first and with advancement of times, Astronomy grew first and then it metamorphosed into Astrology. This metamorphosis reflects the Astronomical and Astrological growth in countries like Mesopotomia, Babylonia, Saldhia, Greek, Egypt, China and Arabia. The basic truths of the past in Astrology are the principles of the present day development. Based on these principles, the final Astrological predictions are given.

Astrology is a mathematical calculation to foretell elaborately about the life of a person. Based on this only, the energy, movements and positions of the 9 Planets are bestowed with certain powers to be

given to any life at the time of birth. Research of all these and each aspects forms the basis of Mathematical Astrology.

It is said that human is controlled by heredity and growing environment. But Astrology says that he is controlled by the position of the planets at the time of birth. These planets are the basic powers of our life. Stars and Rasis and positions are related with these planets. In one's Horoscope, the Educational status is based on the 2nd, 4th, 5th and 9th houses. Moreover 6th place denotes slavery. The employment is based on 10th house only. If the natives of the 2nd house, which denotes the Wealth, and 11th house which denotes the Profit are in an exalted position, then the person is bestowed with development in his job and set to become rich.

Astrology is divided into three major parts; Mathematical part, Horoscopic part and Samhitha part.

Mathematical Part

This is further divided into a) Philosophy b) Smartness and c) Karnas and Life formation, Yugas and ----- form the basis of Mathematical part. This explains about Planets also.

Horoscopic Part

This explains the position of the planets at the time of birth of the person and predictions are given as per this and also the present planetary positions called 'Kochara'. Also this explains about Horoscope, omen and Muhurth.

Samhitha Part

This comprises of Muhurth, Vaasthu, Weather Forecast and Predictions. Also, this explains Omen, Weather, Rains and Animals also.

Muhurth

The process of selecting auspicious time to do the daily rituals and also on special days as enumerated in Vedas, Manu Dharmas and Yagnam is called Muhurth.

Vaasthu

The Process of selecting the right time, season and place to construct Temples, Palaces, Houses, Choultries, Mutt, Wells and Ponds is called Vaasthu.

Weather Forecast

The prediction of proper rains in the particular year and whatever happens in the world will be beneficial or not is described in the Weather Forecast.

Predictions

Whatever a person thinks will happen or not is well explained based on the planetary positions and 'Panchpatchi'.

Mathematics

Mathematics is not evolved recently.. The Moment human exhibited the capacity to analyse things, Mathematics also came into being. Mathematics was there even before the birth of Alphabets. The greatness of Mathematics has been well documented in the ancient literary works by Avvaiyar and Thiruvalluvar in their respective literary works like 'Konraivendhan' and 'Thirukkural'. Between Mathematics and Alphabets, Mathematics is given the Prime place. A Man can live without Alphabets but not without Numbers. Without the knowledge of Numbers, Humans cannot progress. This has been well documented in the olden days' books. Knowledge of Numbers is called Mathematics.

Natural Life and Humans

Not only Humans, even Birds have Mathematical Knowledge. Crow can count till Four. Dolphins can count till ten as documented by the present day Scientists. The need of the Humans was very less when he came into being. But with Advancement of time, the need of the Humans increased due to growth of Modern Civilization. Humans encountered lot of problems. Mathematics was required to solve those problems. Mathematics is enshrined in different stages of life. The olden principles of Science started changing in today's World. This will change tomorrow. But Mathematical principles will not change. Mathematical principles used several Thousand Years ago, remain unchanged even today.

Man learnt life from Nature and Animals. Soon he taught his fellow humans. Accordingly, Arts flourished. To learn this, one Master was required.

A person who taught Arts was considered as

Master. As per their practicality, Wrestling, Sword Fighting, Horsing and Elephant climbing were taught. The Master was appointed to teach the wards of the Kings in the Palace. All others need to send their wards to the house of the Master. Thus, 'Gurukul' way of learning came into being.

'Gurukul' way of Learning is that the students will stay in the house of the Master and do all the help to the Master along with learning. In this way, Weaponary, Self-Defence, Administrative skills and all other skills were taught, which is famously called as '64 Arts'. In Gurukul way of learning, Music, dance, Painting, Imagination exercise and Mathematical skills were taught as a bundle. Architecture, Formation of water Bodies and Conservation of Water and how to use Water for Agriculture judiciously were taught to the students. Students were encouraged to ask questions musically and others will answer musically. This way, they learnt Music, Musicology and Mathematics easily. This is the ancient day's learning process.

Evolution of Water Bodies

Experts opine that Architecture evolved in the 3rd and 5th Century BC by Mayans and Egyptians. Man living in Forests had to migrate in search of water during dry days. Also, he saw the naturally formed small waterbodies and water stretches. He started living nearby that. He named the water stretches as River. Again the stretches dried up in summer. So he started small water bodies which eventually became Ponds, Lakes, Rivers and Canals. He started using these for his Life support and Agriculture.

Ancient Man and Architecture

Initially, Man was living in Hills, Forests, caves and Trees like animals. He was trying to make a shelter of his own. Due to this, he started using Trees and Tree trunks. But he was attacked by Snakes, insects and Animals. To safeguard himself, he started using mud to construct boundary walls for the house. This resulted in further modern growth in civilization. This is the starting point of Architecture. Gradually, it transformed into Palaces, Towers, Fort and Fortress.

Pathways and Roads

Man went for regular hunting. To satisfy his hunger, he went in search of fruits and eatables. The path he used for these purposes became pathways. Hills, Forests and Rivers were geographically dividing the group of people living in different places. But People were following barter system to satisfy their needs by walking to different places. In this process, pathways paved way for bullock carts and Horse carts. Over a period of time, this became District, State and National Highways. A separate Department was created for this and it came to be known as Public Works Department.

The very purpose of this Research paper is to establish the fact that certain planets in the Birth Horoscope are responsible for the person taking up this type of work.

Public Works Department- An Introduction

Public Works Department is one of the several Departments run by the Government. Roads, Bridges, National Highways and creation and maintenance of Rivers, Ponds, Lakes and Canals are parts of this Department.

An individual cannot run and maintain this. Therefore, the Government itself created a separate Department with framework and appointed Staff and Officers to run this Department effectively. Now, in certain places, the Government and individuals join hands to lay National Highways, create Toll Plazas and collect Toll Fee from Vehicles using the Highways by segregating them as Heavy vehicles and Luxury vehicles. The Proceeds of this Toll Fee goes in the further laying of Highways, expansion and maintaining them.

Public works Department employees are the people involved in these work. Currently, the situation is that the Government only can run this Public works Department. To work in this Department, what type of planetary position in individuals is helping, was analysed based on the interaction and enumeration of facts with the Employees working in this Department, based on the analysis of various books on the subject and also based on the teachings in the class room. This Research paper is based on the above data.

Properties of Planets; Sun is the head of Navagrahas. Sun is the leader for Light. Without Light there is no World. No birth. No Life. Light is the source of Heat. Without heat, there is no Philosophy of Life. Sun is an aspect of Paramathma. Sun gives life. Hence, Sun is called the creator of Aathma.

Sun's properties denote Kings, Samrat, Prince, Royal Dynasty, President, Governors appointed by the President, Representatives, National Leaders, VIPs of the Country, Government Employees, Leaders of various levels, Power, Government Bungalows, Mint, Sadasivan, Saivites, Panchaloha, Elephant, Wheat, Pepper, Pilgrimage, Milk, Agricultural produce, some herbs and tree straps..

Sun's Properties on the Human body

Heart, Blood flow, Arteries, Nerves of the Spine, Life Energy, Eyes (Particularly Right Eye), Head, Hairs, Headache (Migraine), Tooth, Fever, Lunatics, Womanising and Treatment.

Properties of 'Mann'; Athma, Energy, Power, Zeal, Ego, Luxury, boldness, self- effacing and Muscle power.

Properties of Mars

There is a close link between human life and Mars. Except few, there is nobody without violence and ego. In the Lower strata, Mars owns violence and in the higher strata Mars is the owner of ego. Man acts violently due to emotional state and energy. When violence acts, it creates desire. If desire is not fulfilled, anger and lust to achieve the desire, are formed due to the influence of Mars.

When emotional state is controlled, confidence, power, bravery, adventure, independence, energy, execution power, ability to lead, desire to grow in life and greatness are formed.

Worldwide, Mars indicates Soldiers, Lieutenants, Military Generals, Sports Players, Wrestlers, Doctors, Engineers, Weapons, Fire, Work done through Fire (Furnaces, etc), Mutton shops, Mortuary, Barbers, Copper, Red Sapphire, Robbery and Accidents.

Body

Head, Nose, smell, Fever, boils, chicken pox, ulcers, Burns, bruises, pain, trauma, handicap,

abortion are indicated. Properties representing the above will be Earth, Brother, Lord Subramania, Goat, power, enthusiasm, widow, womanizing, sudden death and blooming trees.

Properties of Saturn for Livelihood

Saturn is the most powerful of the planets. Also, Saturn is the farthest planet from the Earth. Saturn spends around two and half years in each Rasi. Since Saturn moves very slowly, it is called as 'Mandhan' (meaning slow in Tamil). Slowly but surely, Saturn will spread influence. Of all the Planets, Saturn gets the special name as 'God'. Saturn is considered to exert the worst effects. That's why, unlike other Planets, Saturn has got the nicknames depending upon the position and place of Saturn in the 12 Houses of the Horoscope. Though Saturn is considered to give worst effects as per the position in the Horoscope, Saturn is considered to give good effects equally.

Desire is the basis of human life. Kindling that desire to understand the good and bad of life is considered to be the handiwork of Saturn. Life is nothing without Longevity. Everybody wants to live longer. That's why Saturn is considered as the God of Longevity. Saturn make people to undergo the effect of 'Karma'. Even God is no exception to this. Lord Rama in Ramayana, kills Vali from a hiding and in Krishna Avadhara, Krishna was killed by a Hunter in hiding, killing with arrows on the foot.

We do many sins through thoughts, Words, deeds, body and senses. We have to undergo punishment for the same. 'Thula Rasi' has the Balance (Weighing scale) as the Symbol. Balancing of the good and evil by Humans is done by Saturn and the appropriate punishment will be given by Saturn. It is significant that Saturn gets exalted in Thula Rasi.

As far as Body is concerned

Saturn is the benefactor of Bones, Teeth and Pancreas. For Heat and Light, enemy to Sun. Hence, Saturn is responsible for all cold related diseases like common cold, Phlegm, Paralysis, accident and giddiness. Also Saturn gives, Solitude, control of senses, patience, intensive thinking, analysis, austerity, neatness, truth, cautious, simplicity and practical maturity. Worldwide, solids,

earth, coal, minerals, agriculturists, construction workers, Brick kiln workers, Miners, Potters, Gardeners, Shepherds, Plumbers, Saints, bankrupts and those who are working by subjecting their body to cruelty. Sometimes, we can include Folk artistes. Apart from these, police who implement Laws and Conservancy workers are indicated. Moreover, Forests, Caves, dilapidated houses, Burial Grounds, Corpse, death related rituals are also indicated.

If seen properties wise also, for Life, survival, buffaloes, Slaves, Iron, Servants, Fields, Agricultural work, Blue Diamond, Stealing, Wood Work, Athma, Torture, Jailing, Royal punishment, sufferings, arguments, useless words, illegal womanizing, Lunatic, Gingeley, Mustard, Gingeley Oil, Kerosene, and Ores, Saturn is the benefactor.
