ABSTRACT

Financial status is determined by wealth the second house directly. In reality every planet in turn connects to the person to receive the wealth. There is direct correlation and indirect correlation for the wealth. Ideally every planet contributes to income. Every planet and its conjunction will pave way to different level of income. Venus plays very important role in wealth. The planets that are indicating second cusp should give a person wealth issues. It is equally true the planets that contradictory second cusp should benefit for the person from wealth. This implies of a person need to get more wealth then the planet aligned to second cusp would always give more wealth issues and contradictory planet in unfavorable position will deprive of wealth as well. This should be supported by the Dasa and transit chart.

INTRODUCTION

Every planet directly or indirectly causes wealth. The Venus is understood as the important constellation to given enough wealth.

Let's understand wealth caused by various planets in Table No.1.

The above list is not complete. Then again certain understanding it can accommodate to the actual facts.

To understand the facts of the reality we need to examine Natal charts to for the clarity and understanding. The forecast of the charts would give the person enough heads up and could act as a preventive measure.

In modern world, after contracting income issues they reach the proactive association instead of proactively saving themselves before contracting the risk of income relate issues is observed in prevalent of major population.

In traditional method, in traditional astrology second house lord is Saturn; Saturn is placed in the 12th house. This means whenever this person gets income it will be spent on poor deeds and accumulation of well will be depleted for non-productive purpose such as bed which is of low quality.

The same is not true as the current dasa is Venus dasha and Saturn Bukti. Venus by default indicates highest income opportunities placed in the saturn's house of Kumbam. This means the well accumulated will be stable in nature and uplift the person in the long run. Being set the above using KP methodology the saturnbukthi will project ego expenditure and unwanted problems on the wealth he accumulates. This leads to reduction of wealth over a period of time.

Generic predictions

Land and properties, wealth, family, speech, food and skills are some of the important topics highlighted by the second house in a horoscope.

As the 2nd lord is in the ascendant, there is little doubt that you ultimately make money. However, your relationship with your parents and siblings will be far from satisfactory.

Even in youth, you will look beyond the home for comfort and pleasure. You may resent your parents and see them as barriers to your progress and happiness. In business, you must remain vigilant so as to avoid fraud. Your financial fortunes will rise and fall intermittently, and therefore cause you much worry. You are occasionally abrupt or rude to others.

Since Mercury is in the 2nd house, you will be a good speaker with poetic talents. You will enjoy self-earned wealth and good food. Your family life will be pleasant.

Since Venus is in the 2nd house, you will be a romantic and possess artistic skills. You will be faithful to your partner. You will be educated and affluent. Your life span will be average.

Since Sun and the second lord are positioned in the same house, you will not hesitate to utilise your knowledge and wealth for the benefit of the people and the world in general.
